

PROVISIONS ABOUT LIGHTERS CARRIED BY PASSENGERS OR CREW

A **lighter** is a portable device used to create flame, and to ignite a variety of combustible materials, such as cigars, gas stoves, fireworks, candles, or cigarettes. It consists of metal or plastic container filled with a flammable fluid or pressurized liquid gas, means of ignition to produce the flame, and some provisions for extinguishing the flame. Alternatively, a lighter can be powered by electricity, using an electric arc or heating element to ignite the target.¹

On the person

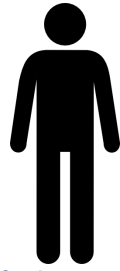

In carry-on baggage

In checked baggage

Type of lighter or product			
<p>Small package of safety matches</p> <p>matches which can only be ignited on the striking surface</p> 	<p><input checked="" type="checkbox"/> Yes</p> <p>No more than one per person</p>	<p><input type="checkbox"/> No</p>	<p><input type="checkbox"/> No</p>
<p>"Strike anywhere" matches</p> <p>matches that can be ignited on several friction surfaces</p> 	<p><input type="checkbox"/> No</p>	<p><input type="checkbox"/> No</p>	<p><input type="checkbox"/> No</p>
<p>Small cigarette lighter (gas lighter)</p> <p>with butane gas, including disposable lighters</p> 	<p><input checked="" type="checkbox"/> Yes</p> <p>No more than one per person</p>	<p><input type="checkbox"/> No</p>	<p><input type="checkbox"/> No</p>
<p>Small cigarette lighter (fuel lighter)</p> <p>does not contain unabsorbed liquid fuel (e.g. Zippo)</p> 	<p><input checked="" type="checkbox"/> Yes</p> <p>No more than one per person</p>	<p><input type="checkbox"/> No</p>	<p><input type="checkbox"/> No</p>
<p>A lithium powered lighter, such as laser-plasma, tesla coils, flux and arc lighters</p> <p>is allowed if it has a means to prevent accidental activation e.g. safety cap</p> 	<p><input checked="" type="checkbox"/> Yes</p> <p>No more than one per person</p>	<p><input type="checkbox"/> No</p>	<p><input type="checkbox"/> No</p>
